

TERRY FARRELL FIREFIGHTERS FUND

WHAT WE DO

The Terry Fund supports firefighters and their families across the nation with educational, medical emergency and equipment grants. Our Surplus Program takes surplus equipment, tools and apparatus from donating departments and distributes to departments lacking the needed tax revenue.

WHAT WE NEED

We are asking LI departments to donate surplus tools and equipment to the Fund. Additionally we are asking for donations of vehicles that are considered surplus by the District. The Fund receives requests from upstate and out of state departments on a daily basis for assistance. In 2010 alone we have donated 8 chiefs' cars, 6 ambulances, 4 pumpers and a ladder truck. The Fund provides a signed Hold Harmless Agreement for every donor. Additionally, Section 205f of the NYS General Municipal Law protects donating fire departments and districts against lawsuit when donating to another emergency service department.

PUT US ON THE LIST

The Fund understands not all fire departments can donate vehicles and fire apparatus outright. However, when your department is selling the chiefs car or trading in the fire truck please let us know by email or phone so that we may purchase the vehicle outright or at least have a chance to bid on the unit for sale
